### Chocolate Revolution

Chocolab à la mode: Welcome to our house of sweet indulgences. It's time to pick up your forks and join the new choco-world order.

According to the experts, chocolate induces relaxing effects similar to marijuana and releases happy hormones in our bodies similar to stimulants. Whether the world's favourite confectionary makes you feel like you're in love, or you're just straight up and unabashedly head over heels for their fine taste and texture, cocoa treats are definitely too legit to quit.

Chocolab is part chocolate factory, part confectionary laboratory, where the sweetest ideas are melted down and reformed as exquisite creations that proudly do justice to the food of the gods. Our cakes are made from scratch using the most divine ingredients, mixed together in recipes you cannot find anywhere else but here.

Rich, lustrous chocolates. Velvety smooth clotted cream. Call it a dream-come-true to Chocolate lovers and have a peek into the glassed-in chocolate kitchen to see our very own master chocolatiers focused on their art. We don't call it "experimental melting" without reason.

Our in-house chocolatiers continually push the boundaries to craft ever-evolving chocolate creations which, while staying true to time-honoured traditions, are brought together in unique gustatory combinations and presented in innovative ways to keep up with the times.

The going does not have to get tough for the tough to indulge in chocolate. Chocolab at SO/ Bangkok crafts a spectacular selection of chocolate confectionery and drinks. For a celebration, a birthday cake or a party, talk to us and we can create all what-you-can-imagine!

Calling all chocoholics, sweet tooths and dessert addicts. Chocolab will release confectionary made-to-order, crispy chocolate, bespoke breakfast boxes and chocolate goodies. Delicious temptations come easy to Chocolab at SO/ Bangkok.
